3. They provide the important books and information about the recent developments in
4. Different subject to staff and students.

e. Book Review Competition: To increase reading habit among students book review competition organized for all students.

f. Competitive Exams: The books that are discovered for the aim of competitive exams on the concept of their study material are created accessible inside the library. Several students have become data before showing for the actual competitive Exams.

g. Institutional Repository: Library should develop institutional repository of PhD theses can be made available for the students.

h. Inter Library Loan: It provided by DELNET. DELNET was started at the India International Centre Library in January 1988 and was registered as a society in 1992. The major purpose of such establishment is to promote the sharing of resources among the libraries. In this Inter-Library Loan System, one library on the request of a library user can bring resources from another library for a specified duration only.

i. New Arrivals Display: Every month different types of new books purchased and displayed on library notice board. The students see the latest books and the awareness of the books.

j. Archives: It can store copies of rare and valuable literary works, technical researches, print and rare books. In our college archives is funded by National Archives of India under the scheme of financial assistance for preservation and conservation of manuscripts, rare books, old and rare documents.

k. Orientation Plan: It conducts library hour, library tour at the beginning of the semester and guide to users regarding library and library facilities, services, collection and how to access information available in the library. The orientation helps & useful to the new students at the beginning of each academic year about the importance of the library, exposing the students to its various library services.

l. Study Cubicals for Research Scholars: For research students the arrangement of ten study carrels has been made in the library. Research scholars are using this study carrels for reading and writing purpose.

m. Suggestion Box: As students have to face many problems and difficulties there suggestion box which is kept in the library are helpful to improve library services.

n. Library Halls: Library must begin Library hour for students, it complete essential for all the students by adding together it in their daily class schedule. In Library hour students should visit the library for expenses an hour in the library for reading materials.

III. USE OF TECHNOLOGY IN LIBRARIES

1. OPAC: OPAC means Online Public Access Catalogue. It is a database of library or group of libraries so that any library user can access such database to know the study materials (books, CDs, DVDs, cassettes, videotapes, articles, etc.) available in the concerned library or libraries.

2. Wi-Fi-Facility: Our libraries are given the facility of Wi-Fi for students of the library for their project work and preparing seminar presentations.

3. Free Internet Access: The readers are provided within theinsideof obtainable up-to-date information with internet facility. Students create use of internet facility for filling up e-scholarship forms, to use NLIST journals, e-books, to check emails, to inducedata from govt. websites, to fill on-lineapplication forms, to check results on-line, etc.

4. N-List Programme: Our library has subscribed to INFLIBNET N-list programme. There are 97000 e-books and 6000 national and international journals are available. User ID and Passwordare provided to each students and staff by INFLIBNET.It gives very comprehensive and recent information of different area of knowledge.

5. Library Security: The library has installed CCTV to monitor student activities. The security of information/knowledge is essential to its effective exploitation.

IV. CONCLUSION

Librarians created a way of thinking and managing their libraries before and help to understand their forces of changes that are taking place. Collective and individually academic libraries have made substantial progress inproviding new modes of services. Nowadays reading habits are decreasing day by day these kinds of innovative practices act as a hook to attract users towards libraries. Most of the duty of every librarian to offer innovative best practices suitable to their library in whatever possible way in order to serve users in the best possible way.
